Re: File Status, Case Jones, Eddie, Duane, Chance, Reo, Donald, and Debbie Projects,  
S/055/004, (UTU-63436) Wayne County, Utah

Dear Mr. Jones:

We received a copy of the BLM letter of August 17, 1995, to you regarding the Eddie, Duane, Chance, Reo, and Donald project locations. The BLM inspected these claim locations and found the surface disturbances were satisfactorily reclaimed. Under the Division's policy for neighboring /related sites the mining projects on these five claims and the Debbie claim were combined under one file. According to the BLM, the mining disturbances on the Debbie claim have not yet been satisfactorily reclaimed. Because we have the project on the Debbie claim combined with the projects on the other five claims, our file number S/055/004 will remain open. When the disturbances on the Debbie claim have been reclaimed and we have been officially notified by the BLM we can close our file.

Please let us know if you have plans for completing reclamation at this site in the immediate future. Division staff will perform an inspection of the project sites when in the area. If you have any questions regarding this letter, please contact me or Wayne Hedberg.

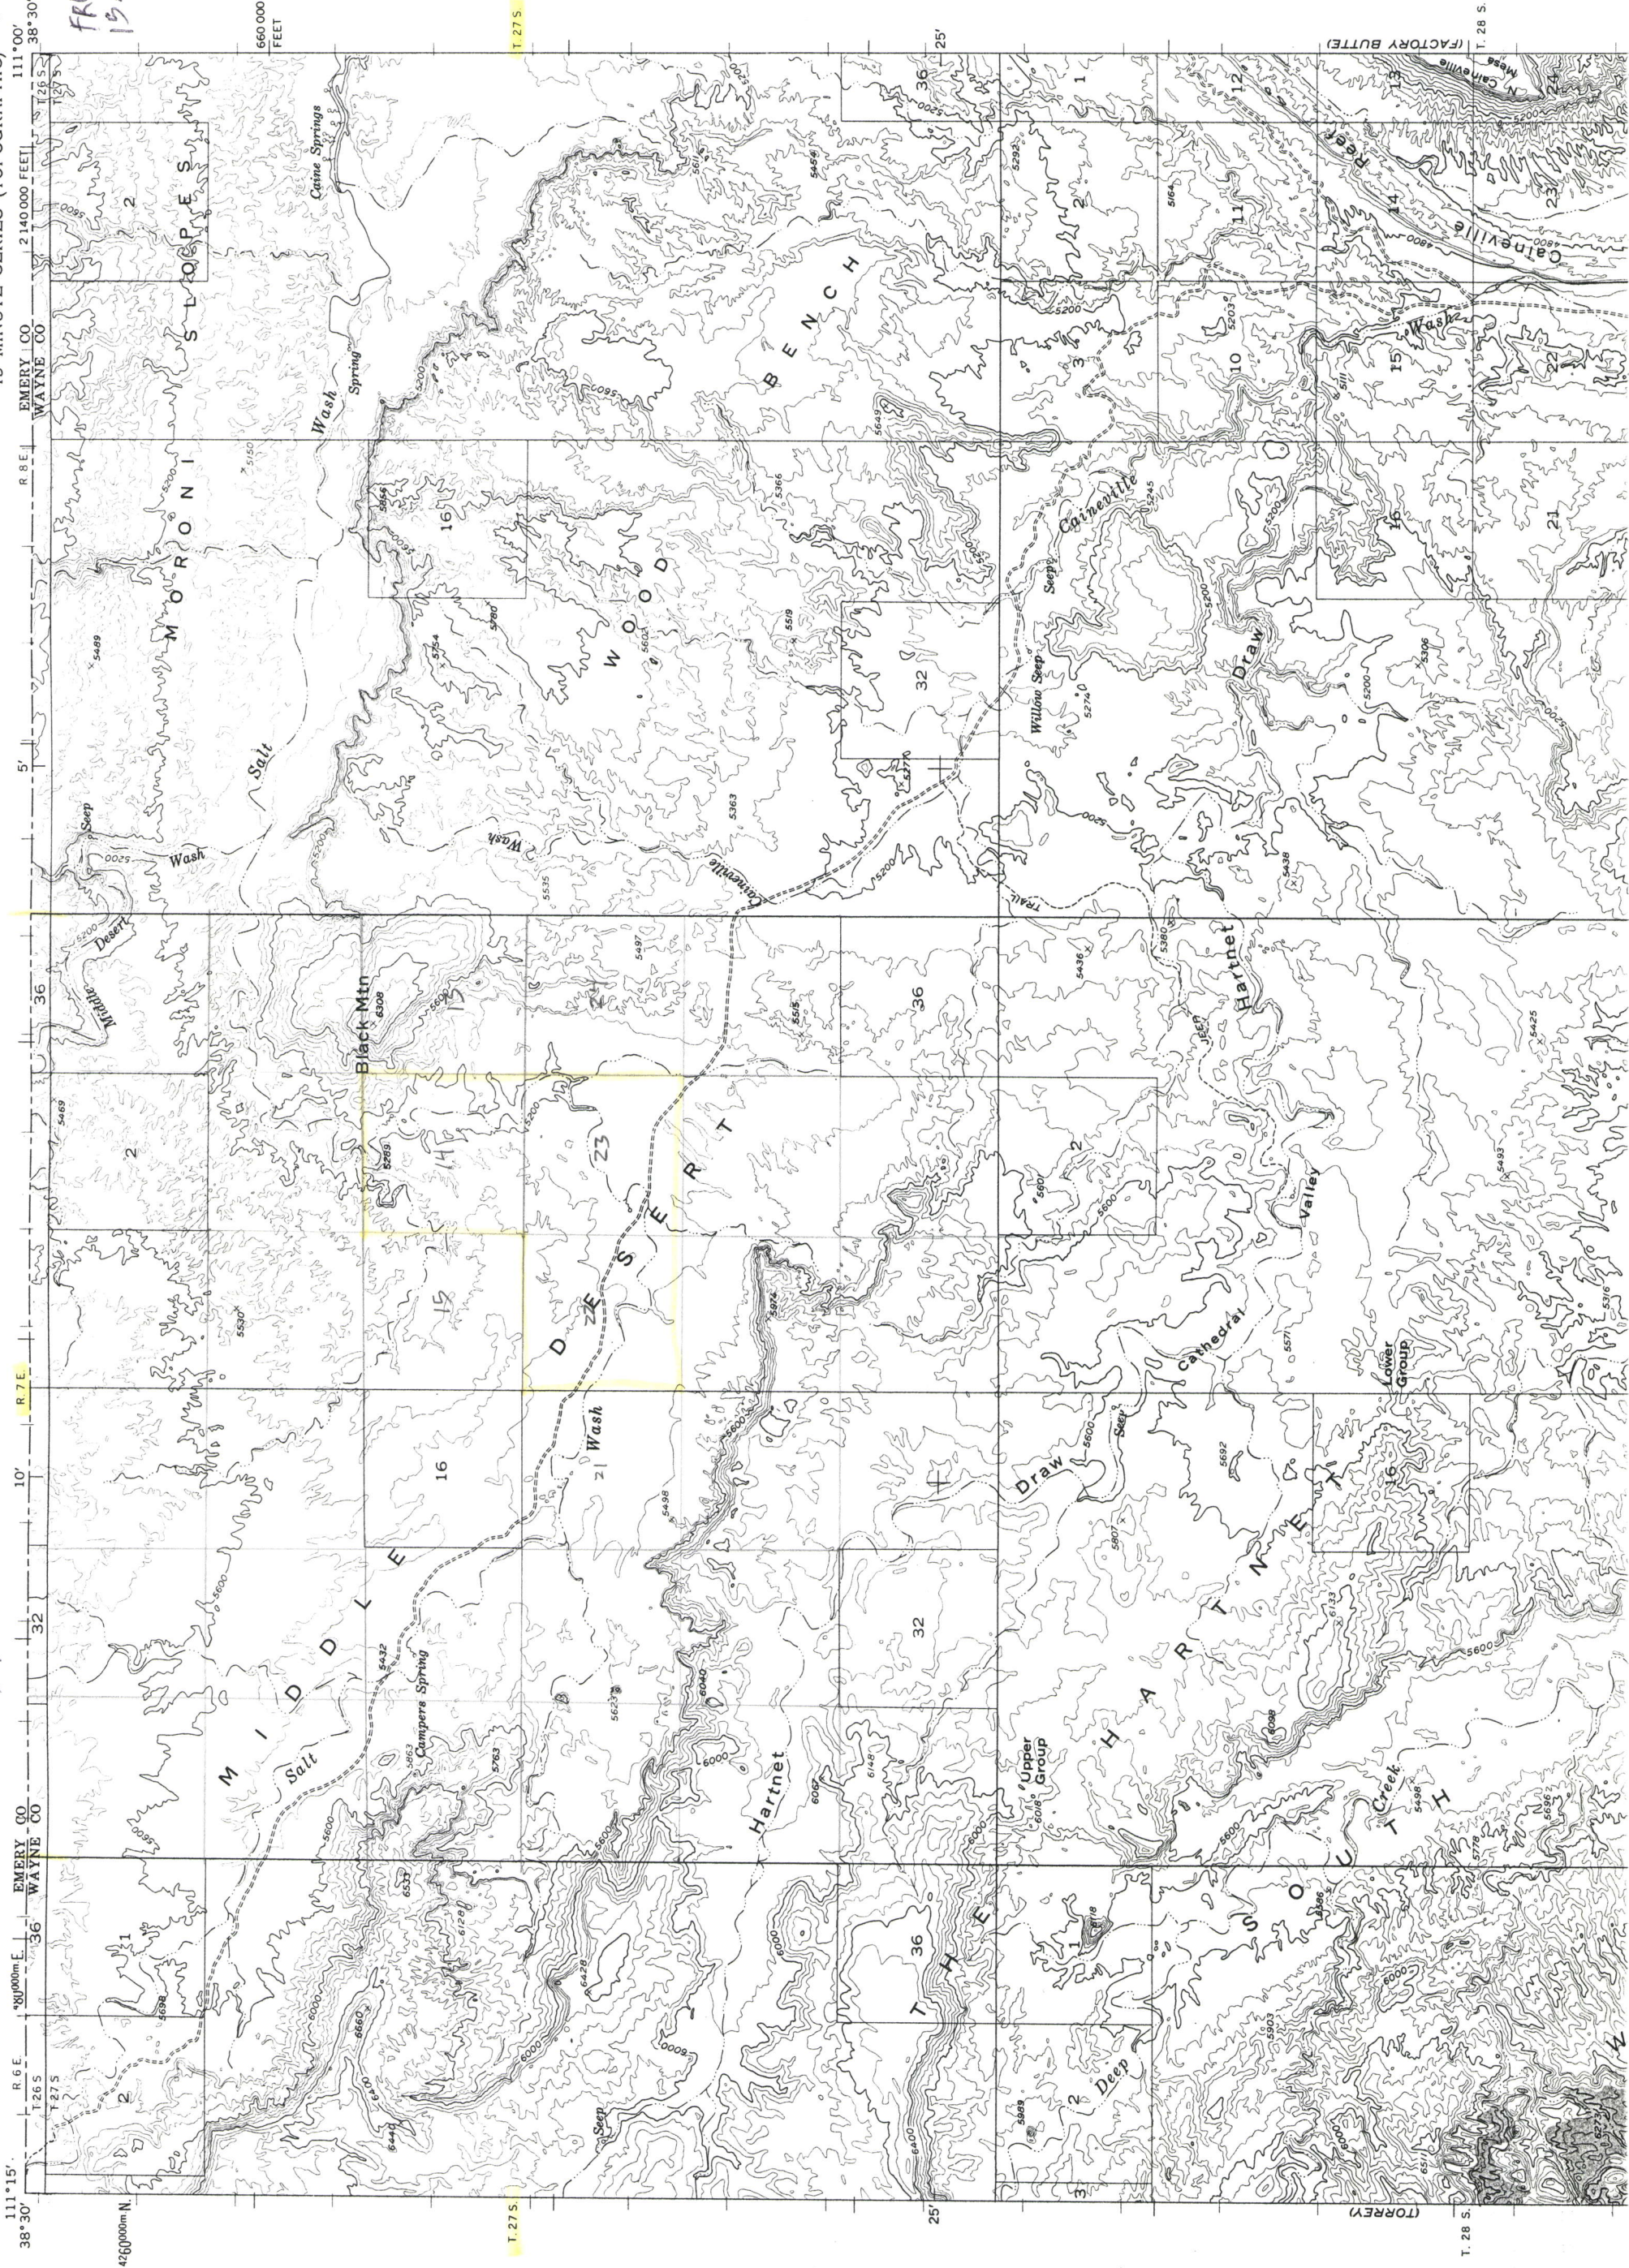

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
